

Dear friends,

We are back to our everyday life but it will not be the same after these unforgettable hours and days together.

It really touched us all that we were able to move people and create friendships. Somebody told us during these days, Eibach is far more than a company, a product and worldwide family - Eibach is a way of life. We will live further on that way, with "The Will to Win" and the steady effort to give our best, as human beings and business partners.

We would like to thank everybody who influenced these wonderful hours by kind heartiness, never ending friendship and loyal business partnership.

We have displayed many of your lovely presents in a bouquet of friendships in our lobby that they remind us daily of these bonds.

Thank you very much!

All your friends at Eibach
